SECTION 4 - SERVICE CONNECTION AND MAINTENANCE CHARGES

4.1 GENERAL

Blue Ridge Digital Phone Company is subject to nonrecurring service charges that apply to customer requests for connecting, moving or changing service. These charges are in addition to any other scheduled rates and charges that would normally apply under this Tariff.

If the customer requests that overtime labor be performed at a premises on the day or days of the week other than normal work hours or on holidays, or interrupts work once it has begun, an additional charge may apply based upon the additional cost involved.

All changes in location of the customer's service from one premise to another, except as otherwise provided in this Section, are treated as new service connections with the appropriate Service Charges applying.

6.2 CUSTOM CALLING FEATURES, (Cont'd.)

6.2.1 PACKAGE FEATURES, (Cont'd.)

- D. Caller ID Blocking – Caller ID Blocking will block the customer's telephone number from being displayed to others. By dialing a code before placing a call, the customer can prevent their number from appearing on the Caller ID display of the person receiving the call.
- E. Call Return – Call Return (*69) feature allows a customer to automatically callback the last number dialed. This is accomplished by the customer activating a code. The network periodically tests the busy/free status of the called line for up to 30 minutes until both lines are found free and then calls back for the customer. The automatic callback feature also allows customers, having reached a busy number, to dial a code before hanging up. The call return feature then continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free the call is automatically called back and the customer is notified of the connected call via a distinctive ring.

The following type of calls cannot be automatically called back:

- Calls to toll-free Service numbers
- Calls to 900 Service numbers
- Calls preceded by an inter-exchange carrier access code
- International Direct Distance Dialed calls
- Calls to Directory Assistance
- Calls to 911

6.2 CUSTOM CALLING FEATURES, (Cont'd.)

6.2.1 PACKAGE FEATURES, (Cont'd.)

- F. Call Forwarding – Call forwarding features, when activated, redirect attempted terminating calls to another customer-specified line.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding Feature is billed for the forwarded leg of the call.

- G. Three Way Calling – 3-Way Calling allows a customer to add a third party to an existing call and form a three-way call.

- H. Speed Dialing – Speed Calling allows the subscriber to create and maintain a personal list of phone numbers, each of which can be dialed by entering one or two subscriber specified digits.

- I. Web Based Call Management – Web Based Call Management allows the customer to manage their account and calling features from the Blue Ridge Digital Phone Company website.

- J. Selective Call Acceptance – Selective Call Acceptance screens incoming calls against a list of subscriber-specified directory numbers and accepts only those calls from numbers on the list. (C)

- K. Selective Call Rejection – Selective Call Rejection allows the Customer to create a list of numbers which, when calling, will be blocked from ringing at the Customer's telephone and will be sent to an appropriate recording. (C)

6.3. 900/976 INFORMATION SERVICE BLOCKING

6.3.1 GENERAL

900/976 Information Service Blocking is provided by the Company as the default service option to restrict calls from the customer's exchange access line to all 900 and/or 976 service access codes.

6.3.2 REGULATIONS

- A. When the blocking is activated, direct dialed calls to all 900 and/or 976 service numbers from the customer's exchange access line will be blocked. These blocked calls will be directed to an announcement.
- B. This option does not prevent customers from placing 900 and/or 976 calls from their exchange access line using other Operator Service Providers. In addition, this option does not prevent customers from placing operator assisted or credit card calls to 900 and/or 976 services from a line that is not blocked.

6.4 OPERATOR SERVICES

6.4.1 GENERAL

A service charge will apply to local calls placed with the assistance of a Company Operator or mechanized response system. Various billing arrangements are available with Operator Assisted Service including Operator Station (Collect, Billed to Third Number, Other Operator Assisted) and Person-to-Person.

6.4.2 OPERATOR ASSISTED SERVICES

Customers who cannot physically dial a call can qualify for an Operator Assisted exemption, which provides the customer with operator assistance at a direct dialed rate without a service charge. No application or certification is required for this program; however, the customer must request this exemption.

A. Operator Station

An Operator Station service charge applies when calls are completed with the assistance of a Company Operator, except as specified for Person-to-Person calls.

B. Person-to-Person

Person-to-Person charges apply when the calling party specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX or Centrex attendant. After the called station has been reached, if the called party is unavailable and the calling party requests or agrees to speak to a party other than the party initially specified, the call is still billed as a Person-to-Person call. The calling party is responsible for identifying the party at the called station.

6.10 PENNSYLVANIA TELECOMMUNICATIONS RELAY SERVICE (TRS)

6.10.1 GENERAL

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business access lines served by this Company. (Access lines are those lines extending from the telephone company's central office to the end-user's premises.) This surcharge applies regardless of whether or not the access line uses the PA TRS.

The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the PA TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

COMPETITIVE LOCAL EXCHANGE CARRIER

SECTION 6 - MISCELLANEOUS SERVICES, (Cont'd.)

6.11 TOLL PRESUBSCRIPTION

6.11.1. Toll Presubscription is a procedure whereby a customer designates to the Telephone Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs) which the customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company.

Selection of toll presubscription provider by an end user is subject to the terms and conditions following.

6.11.2 At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user. This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), as specified in C.1 following.

COMPETITIVE LOCAL EXCHANGE CARRIER

SECTION 6 - MISCELLANEOUS SERVICES, (Cont'd.)

6.11 TOLL PRESUBSCRIPTION, (Cont'd.)

6.11.3 Presubscription Charge Application

1. End user choices for toll presubscription:

Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes. Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.

2. If a new customer cannot decide upon presubscription IXCs, the Telephone Company may extend a 30-day period following completion of the initial service request to make a choice without charge. In the interim, the customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.

3. If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein. The IXC must provide written notification to the Telephone Company that this activity has taken place. Following the IXC's discontinuance of service, the Telephone Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance.

4. An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section. In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC.

SECTION 6 - MISCELLANEOUS SERVICES, (Cont'd.)

6.11 TOLL PRESUBSCRIPTION, (Cont'd.)

6.11.4. End User Charge Discrepancy

1. When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:

A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.

When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.

If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user.

2. Verification of Orders for Telemarketing

Neither the IXC or the Telephone Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slamming practices and procedures.

COMPETITIVE LOCAL EXCHANGE CARRIER

SECTION 6 - MISCELLANEOUS SERVICES, (Cont'd.)

6.11 TOLL PRESUBSCRIPTION, (Cont'd.)

6.11.5 PIC Switchback Option-Business/Residence

PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when an end user denies requesting a change in primary toll carrier submitted by the IXC. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Telephone Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous IXC at no charge. If this service is made available by the Telephone Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 days notice to the Telephone Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.
